

12. APPENDIX

Outside Bodies Report

Councillor J Fradgley - Stratford in Bloom Report.

At the last SiB meeting the contractor, Plantscape, reported on the summer planting . A huge amount of watering took place and one basket failed and was replaced. We were told that the paler colours, whites, yellows, are less resilient to hot, dry spells so it was decided that 2027 will be a colour mix called Starburst so flowers should be a little more resilient.

Summer bedding being removed end September and winter planting going in after the Mop.

The black 3 tier planters are being revamped for next year, removing the top two tiers and planting the bases to overflow as the planters on Bridge Street overflow with blossoms.

SiB have submitted their grant application to STC.

- Awards evening to be held at the Town Hall on September 28th 6pm - **All councillors warmly invited.**
- SiB would like a second Town Councillor to join the team
